Global Ecology and Biogeography

Contents

Volume 13, Issue 1, January 2004

Ecological sounding

J. A. F. Diniz-Filho: Macroecology and the hierarchical expansion of evolutionary theory 1–5

Research papers

G. Brehm and K. Fiedler: Bergmann's rule does not apply to geometrid moths along an elevational gradient in an Andean montane rain forest 7–14

H. T. Arita and P. Rodríguez: Local-regional relationships and the geographical distribution of species 15–21

S. Sfenthourakis, S. Giokas and E. Tzanatos: From sampling stations to archipelagos: investigating aspects of the assemblage of insular biota 23–35

F. Lloret, F. Médail, G. Brundu and P. E. Hulme: Local and regional abundance of exotic plant species on Mediterranean islands: are species traits important? 37–45

M. L. McKinney: Measuring floristic homogenization by non-native plants in North America 47–53

M. V. Lomolino and D. R. Perault: Geographic gradients of deforestation and mammalian communities in a fragmented, temperate rain forest landscape 55–64

K. L. McKee, I. A. Mendelssohn and M. D. Materne: Acute salt marsh dieback in the Mississippi River deltaic plain: a drought-induced phenomenon? 65–73

M. S. Rodriguero and D. E. Gorla: Latitudinal gradient in species richness of the New World Triatominae (Reduviidae) 75–84

J. M. C. da Silva, M. C. de Sousa and C. H. M. Castelletti: Areas of endemism for passerine birds in the Atlantic forest, South America 85–92

Library Letters 93–96

Volume 13, Issue 2, March 2004

Ecological sounding

D. Weber, U. Hintermann and A. Zangger: Scale and trends in species richness: considerations for monitoring biological diversity for political purposes 97–104

Meta-analysis

C. Liu, C. J. Westman, B. Berg, W. Kutsch, G. Z. Wang, R. Man and H. Ilvesniemi: Variation in litterfall-climate relationships between coniferous and broadleaf forests in Eurasia 105–114

Research papers

W. J. Bond, K. J. M. Dickinson and A. F. Mark: What limits the spread of fire-dependent vegetation? Evidence from geographic variation of serotiny in a New Zealand shrub 115–127

D. F. R. Cleary and M. J. Genner: Changes in rain forest butterfly diversity following major ENSO-induced fires in Borneo 129–140

V. Rull: An evaluation of the Lost World and Vertical Displacement hypotheses in the Chimantá Massif, Venezuelan Guayana 141–148

M. Nores: The implications of Tertiary and Quaternary sea level rise events for avian distribution patterns in the lowlands of northern South America 149–161

J. Rodríguez, M. T. Alberdi, B. Azanza and J. L. Prado: Body size structure in north-western Mediterranean Plio-Pleistocene mammalian faunas 163–176

E. T. Azeria: Terrestrial bird community patterns on the coralline islands of the Dahlak Archipelago, Red Sea, Eritrea 177–187

Corrigendum 189

Library Letters 191–192

Volume 13, Issue 3, May 2004

Ecological sounding

P. V. C. Mathias, C. V. Mendonça, T. F. L. V. B. Rangel and J. A. F. Diniz-Filho: Sensitivity of macroecological patterns of South American parrots to differences in data sources 193–198

Research papers

P. G. Dimitrakopoulos, D. Memtsas and A. Y. Troumbis: Questioning the effectiveness of the Natura 2000 Special Areas of Conservation strategy: the case of Crete 199–207

L. R. Iverson, M. W. Schwartz and A. M. Prasad: How fast and far might tree species migrate in the eastern United States due to climate change? 209–219

D. H. K. Fairbanks and K. C. McGwire: Patterns of floristic richness in vegetation communities of California: regional scale analysis with multi-temporal NDVI 221–235

A. J. Kerkhoff, S. N. Martens, G. A. Shore and B. T. Milne: Contingent effects of water balance variation on tree cover density in semiarid woodlands 237–246

B. A. Middleton and K. L. McKee: Use of a latitudinal gradient in bald cypress (*Taxodium distichum*) production to examine physiological controls of biotic boundaries and potential responses to environmental change 247–258

D. Bastlová, H. Čížková, M. Bastl and J. Květ: Growth of *Lythrum salicaria* and *Phragmites australis* plants originating from a wide geographical area: response to nutrient and water supply 259–271

A. B. Josefson and J. L. S. Hansen: Species richness of benthic macrofauna in Danish estuaries and coastal areas 273–288

Volume 13, Issue 4, July 2004

Ecological sounding

K. C. Burns: Scale and macroecological patterns in seed dispersal mutualisms 289–293

Research papers

A. L. Márquez, R. Real and J. M. Vargas: Dependence of broad-scale geographical variation in fleshy-fruited plant species richness on disperser bird species richness 295–304

E. Martínez-Meyer, A. T. Peterson and W. W. Hargrove: Ecological niches as stable distributional constraints on mammal species, with implications for Pleistocene extinctions and climate change projections for biodiversity 305–314

G. M. Foody: Spatial nonstationarity and scale-dependency in the relationship between species richness and environmental determinants for the sub-Saharan endemic avifauna 315–320

B. A. Hawkins: Summer vegetation, deglaciation and the anomalous bird diversity gradient in eastern North America 321–325

C. R. McClain: Connecting species richness, abundance and body size in deep-sea gastropods 327–334

P. Irz, C. Argillier and T. Oberdorff: Native and introduced fish species richness in French lakes: local and regional influences 335–344

T. Luo, Y. Pan, H. Ouyang, P. Shi, J. Luo, Z. Yu and Q. Lu: Leaf area index and net primary productivity along subtropical to alpine gradients in the Tibetan Plateau 345–358

H. Mehner, M. Cutler, D. Fairbairn and G. Thompson: Remote sensing of upland vegetation: the potential of high spatial resolution satellite sensors 359–369

S. Anselmi, M. Chiesi, M. Giannini, F. Manes and F. Maselli: Estimation of Mediterranean forest transpiration and photosynthesis through the use of an ecosystem simulation model driven by remotely sensed data 371–380

Library Letters 381–383

Volume 13, Issue 5, September 2004

Research papers

J. M. Paruelo, R. A. Golluscio, J. P. Guerschman, A. Cesa, V. V. Jouve and M. F. Garbulsky: Regional scale relationships between ecosystem structure and functioning: the case of the Patagonian steppes 385–395

E. Heegaard: Trends in aquatic macrophyte species turnover in Northern Ireland — which factors determine the spatial distribution of local species turnover? 397–408

R. Borchert, S. A. Meyer, R. S. Felger and L. Porter-Bolland: Environmental control of flowering periodicity in Costa Rican and Mexican tropical dry forests 409–425

A. Maria Fosaa, M. T. Sykes, J. E. Lawesson and M. Gaard: Potential effects of climate change on plant species in the Faroe Islands 427–437

N. Olifiers, M. V. Vieira and C. E. V. Grelle: Geographic range and body size in Neotropical marsupials 439–444

J. L. Lockwood and J. J. Gilroy: The portability of foodweb dynamics: reassembling an Australian eucalypt–psyllid–bird association within California 445–450

G. H. Kattan and P. Franco: Bird diversity along elevational gradients in the Andes of Colombia: area and mass effects 451–458

B. Collen, A. Purvis and J. L. Gittleman: Biological correlates of description date in carnivores and primates 459–467

Correspondence 469–476

Library Letters 477

Volume 13, Issue 6, November 2004

Ecological sounding

S. M. Scheiner: A mélange of curves – further dialogue about species–area relationships 479–484

Research review

P. del Monte-Luna, B. W. Brook, M. J. Zetina-Rejón and V. H. Cruz-Escalona: The carrying capacity of ecosystems 485–495

Research papers

J. C. Russell and M. N. Clout: Modelling the distribution and interaction of introduced rodents on New Zealand offshore islands 497–507

R. P. Duncan and T. M. Blackburn: Extinction and endemism in the New Zealand avifauna 509–517

E. S. Gritti, S. Gachet, M. T. Sykes and J. Guiot: An extended probabilistic approach of plant vital attributes: an application to European pollen records at 0 and 6 ka 519–533

L.-B. Vázquez and K. J. Gaston: Rarity, commonness, and patterns of species richness: the mammals of Mexico 535–542

C. Fu, J. Wu, X. Wang, G. Lei and J. Chen: Patterns of diversity, altitudinal range and body size among freshwater fishes in the Yangtze River basin, China 543–552

L. Miles, A. Grainger and O. Phillips: The impact of global climate change on tropical forest biodiversity in Amazonia 553–565

Correspondence 567–568
